AC & R COMMUNICATION

UNINTERRUPTED

between

Bogota and U.S.

throughout recent crisis!

AMERICAN CABLE & RADIO CORPORATION was the only system able to provide uninterrupted telegraph service between Colombia, United States and other parts of the world.

PRIOR TO THE Inter-American Conference which recently convened at Bogota, All America Cables and Radio, Inc., with its sister company Mackay Radio, established a direct radio teleprinter circuit between the State Department in Washington, D.C. and the American Embassy in Bogota, and kept this circuit in operation to handle important government messages and press dispatches which informed the world of stirring events that occurred during the past few days.

The American Cable & Radio Corporation owns and operates offices at Bogota, Medellin,

Cali, Buenaventura, Barranquilla and Cartagena through its subsidiary company All America Cables and Radio, Inc.

The American Cable & Radio Corporation is an associated company of the International Telephone and Telegraph Corporation and, through its subsidiaries, owns and operates 134 cable and radio stations abroad which are always in a position to serve the needs of the press and the public, not only in times of crises but during every hour of every day and night to promote international trade and to further the interests of world peace and prosperity.
